

PRODUCT SPECIFICATIONS

Mulch & Grow Hybrid 70/30 Blend

Our Mulch & Grow Hybrid blend is one of the best choices for hydroseeding applications. Specialized fibers are used in the manufacturing process of this product. We use DLK fibers and cellulose fibers. We also add our S.A.P. 1500 (Super Absorbing Polymer) which give the product a superior advantage in water absorbency.

Advantages:

- Use of DLK fibers for superior water retention
- S.A.P. has a water holding capacity of 1500 times its own weight
- A more consistent uniform fiber length
- No Fillers
- Excellent water retention through premium raw materials
- Better end results with accelerated germination.
- SERVICE!

Physical Properties:

Moisture Content	12% + - 3
DLK Fibers	70% + - 2
Cellulose Fibers	28% + - 2
S.A.P 1000	2% + - 2
PH Range	5.5 + - 1
Water Holding Capacity	1500% Minimum

Packaging:

Bag	Yellow Bag with UV Protection with Green Print
Finished Bag Size	19 X 9 X 25
Bag Weight	50 lbs. + - 2 lbs.
S/W Palletized	5 way stacking, 40 bags per pallet
Black Caps	(Extra charge may be added during season)
Truckload Quantities	Approximately 840 bags

Applications:

Carolina Fiber products may be used in a wide range of applications, such as erosion control, golf courses, highway work, and residential.

Application Rates:

Hydro Seeding	1500 lbs/acre	Moderate to 3.1 Slope
	2000 lbs/acre	3.1 to 2.1 Slope
	2500 lbs/acre	Greater than 2.1 Slope
Hydro Mulching/Binding	750 lbs/acre
